ACCESSIBLE FACILITIES FOR PERSONS WITH DISABILITIES

WHEELCHAIR SPECIAL SEATING ARRANGEMENTS

The Jubilee Auditorium is fully wheelchair accessible with ramps available at the main and east entrances. Wheelchair seating at the Jubilee Auditorium is ticketed and priced in accordance with each separate performance. Please be sure to specifically request a wheelchair space when calling the box office to purchase tickets. Wheelchair patrons and one guest have the opportunity to purchase seating at the normal charge for an event and occupy seats together at a number of locations throughout the orchestra level, first balcony and in the pit seating. Since wheelchair spaces are limited additional group members are not guaranteed seating near the wheelchair patron but we will make an effort to accommodate groups if availability allows it. In order to ensure that our patrons are comfortably seated we recommend that you allow extra time to park and get to your seats before the performance is scheduled to begin. Handicap parking is located just to the east of the building or wheelchair patrons may be dropped off at the main or east entrance ramps. The Jubilee Auditorium does not provide wheelchairs to its patrons.

HEARING DEVICES

Personal Infrared Receivers should work in the Auditorium.

Stethoscopic Receivers may be rented for no cost. To operate receiver, place the receiver ear cushions in ears and adjust volume to desired level. Connect induction loop to the receiver and place around neck. If you are using a soulouette, place it behind the ear and connect to receiver. Set your hearing aid switch to the "t" position. Adjust receiver volume as required.

The Stethoscopic receivers are suitable for personal direct input connection as well. Ensure that the eye of the receiver is not covered while in use. To avoid unwanted feedback, reduce volume before leaving the Auditorium. Turn off receiver before returning the device to the Assistive Listening booth.

GUIDE DOGS

Individuals with guide dogs are welcome at the Jubilee Auditorium. Guide dogs are recognized by a harness and a handle, which is held in the owner's left hand.
