

14th Avenue NW Overpass Construction

April 2026 through the end of October 2026, the City of Calgary will be undergoing a major resurfacing and refurbishment project on the 14th Avenue bridge over 14th Street NW.

Access to the Jubilee Auditorium for vehicles coming from 16th Avenue NW and 14th Street Southbound will be limited to single lane Eastbound across the 14th Avenue overpass.

All traffic exiting to the Jubilee to 14th Avenue NW will be diverted North towards 16th Avenue NW (and detour back to 14th Street Southbound if needed).

Truck Traffic will be unable to turn off the 14th Street NW Ramp onto the overpass and must detour to 14th Avenue NW Via 19th Street NW.
